### Global solutions to the stochastic system of four-species bi-molecular chemical reactions in space dimension 2

**报告人:** Julien Vovelle (Ecole Normale Supérieure de Lyon, France)

**时间:** 2025. 6. 5 下午4:30--5:30

**地点:** Zoom link: ID: 85972144168, password: 123456

**摘要:** The theory of quadratic systems of reaction-diffusion equations has known recent advances, in particular the emblematic system describing four-species bi-molecular chemical reactions. We introduce a stochastic perturbation of the latter, and establish the existence of global classical solutions in space-dimension 2. Joint work with Marta Leocata (LUISS, Roma).

**报告人简介:** 法国CNRS, ENS de Lyon 资深研究员，在 ARMA, CPDE, JFA, AIHP, 3MAS, Ann. Probab., Ann. Sci. Éc. Norm. Supér., SIMA等国际权威期刊发表文章数十篇。
